2. SERVICES (P. 4)
3. RETAIL PROJECTS (P. 5-10)
4. OFFICE PROJECTS (P. 11-18)
5. INDUSTRIAL PROJECTS (P. 19-20)

OUR MISSION ● ● ● ●

Yellow Crown Construction ("YCC") was officially started in 2022, but has a team of leaders with over 50 years of construction and development experience. The team at YCC has completed hundreds of construction projects ranging from ground up development to all types of tenant buildouts.

YCC differs from most other contractors in that the executive team has years of commercial real estate development experience as well as general and sub-contracting experience.

We have extensive experience in multiple product types including, but not limited to: retail, office, industrial, medical, multi and single family, as well as hospitality. Our focus is on expanding on our leadership team's reputation and relationships to maintain a core group of clients and work with them repeatedly.

Having been on the development side, we intend to add significant value at the onset of projects by assisting in the planning, value engineering, and providing a creative approach to development that will allow for the most successful, efficient, and economically viable projects for our clients.
